

# Hadi ZareZadeh

Email: [HadiZareZadeh00@gmail.com](mailto:HadiZareZadeh00@gmail.com) | LinkedIn: [Link](#) | Portfolio: [Link](#)

## SUMMARY

---

Computer Science graduate with strong foundations in algorithms, optimization, and software engineering, now transitioning toward Machine Learning and AI research. Passionate about deep learning, computer vision, NLP, and reinforcement learning, with a growing portfolio of Python-based projects involving automation, data processing, and algorithmic problem-solving. Motivated by long-term research-driven challenges and seeking opportunities to develop advanced AI systems while contributing to innovative and impactful projects.

## INTERESTS

---

Deep Learning, Computer Vision, NLP & Transformer Models, Reinforcement Learning, Representation Learning, Optimization Algorithms, Autonomous Systems, Applied AI Research

## SKILLS

---

**Programming:** Python (advanced), PHP/Laravel, JavaScript (Vue 3)

**Data & ML:** NumPy, pandas, scikit-learn, PyTorch (basic), TensorFlow/Keras (basic), EDA, data wrangling

**Databases:** MySQL/MariaDB

**Automation & Tools:** Python automation, Appium, Selenium, Git/GitHub, Linux, REST APIs

**Other:** Basic Google Cloud, unit testing

## ONLINE COURSEWORK (SELF-STUDY)

---

- Python for Data Science & Machine Learning — Essential Training, Part 1 [LinkedIn](#)
- Python for Data Science & Machine Learning — Essential Training, Part 2 [LinkedIn](#)
- Deep Learning: Getting Started [LinkedIn](#)
- Deep Learning Foundations: Natural Language Processing with TensorFlow [LinkedIn](#)
- Machine Learning Foundations: Linear Algebra [LinkedIn](#)

## EDUCATION

---

|                                                   |                         |
|---------------------------------------------------|-------------------------|
| Kashmar Higher Education Institute, Kashmar, Iran | Fall 2016 – Summer 2020 |
| <b>B.Sc. of Computer Science</b>                  |                         |

|                                                       |             |
|-------------------------------------------------------|-------------|
| Dr. Shariati School, Bandar Lengeh, Iran              | Spring 2014 |
| <b>High School Diploma of Physics and mathematics</b> |             |

## ACADEMIC & TEACHING EXPERIENCE

---

|                                                   |           |
|---------------------------------------------------|-----------|
| Kashmar Higher Education Institute, Kashmar, Iran | 2017–2020 |
|---------------------------------------------------|-----------|

*Teacher Assistant*

- Assisted in *Introduction to Programming (C)*, *Advanced Programming (C++)* - [Dr. Yousef Zadeh](#)

|                                                                                       |           |
|---------------------------------------------------------------------------------------|-----------|
| Head of Education, <i>Scientific Association</i> , Kashmar Higher Education Institute | 2017–2020 |
|---------------------------------------------------------------------------------------|-----------|

|                                                                                 |      |
|---------------------------------------------------------------------------------|------|
| Research Projects: Evolutionary Algorithms – Kashmar Higher Education Institute | 2019 |
|---------------------------------------------------------------------------------|------|

|                                                                           |      |
|---------------------------------------------------------------------------|------|
| Research Projects: Genetic Algorithm – Kashmar Higher Education Institute | 2019 |
|---------------------------------------------------------------------------|------|

## SELECTED UNDERGRADUATE COURSE SCORES (SCALE: 20-POINT)

---

- |                                           |                                      |
|-------------------------------------------|--------------------------------------|
| • Data Structures & Algorithms – 20.00    | • Data Mining – 20.00                |
| • Advanced Programming (C++) – 20.00      | • Scientific Computing Tools – 17.00 |
| • Introduction to Programming (C) – 18.50 | • Technical English for CS – 20.00   |
| • Digital Logic – 20.00                   | • Database Systems – 17.00           |
| • Linear Optimization – 15.00             | • Computer Systems – 15.50           |

## PROFESSIONAL EXPERIENCE

---

### Legend Company, Kashmar, Iran

2018–2020

*Game Developer*

- Developed a 2D educational game in a 7-member team using Unity & C#.
- Implemented core gameplay mechanics and integrated quiz-based learning modules.
- Improved user experience based on playtesting and iteration.

## PROJECTS

---

### Plato Mobile Game Automation System

2025

*Tech: Python, Appium, Selenium*

- Built a scalable automation system for 50+ mobile game types using modular strategy-based design.
- Added multi-instance parallel processing and automatic Appium server lifecycle management.
- Integrated OpenCV/PIL for UI element detection and game state recognition.

### Telegram Automation Bot for Hamster Kombat & Web3 Games

2024

*Tech: Python, Telegram API, TON/Web3*

- Created a bot to automate tap-to-earn tasks, multi-account workflows, and long-running sessions.
- Implemented concurrency, monitoring, and blockchain integrations for stable performance.

### Full-Stack E-Learning Platform – Lyndakade

2020-2023

*Tech: Laravel, MySQL, Vue 3, Meilisearch*

- Built an e-learning system with SSR, optimized DB queries, and integrated authentication and payments.
- Implemented search with Meilisearch and improved page performance via backend optimizations.

### 3D Car Racing Game for Educational Research

2017–2018

*Tech: Unity, C#*

- Developed core gameplay modules for a research-based simulation game.
- Contributed to an IEEE-published study through feature implementation and user testing.

## RESEARCH & PUBLICATIONS

---

Co-developed a driving simulation game used in an IEEE-published study (Paper ID: 8712031)

Investigated improvements to HEFT-based load-balancing algorithms (referencing IEEE 7881902)

## COMPETITIONS

---

Participated in ACM programming competitions

Sharif 2018, Ferdowsi 2018

## LANGUAGES

---

**Persian:** Native

**English:** B2 (IELTS preparation in progress)

**Spanish:** A2 (on Duolingo, [View Profile](#))

## PRESENTATIONS

---

**Evolutionary Algorithms** 2019

**Genetic Algorithm** 2019

## SPORTS

---

**Karate-do:** 2nd Dan Black Belt, April 2005 – 2016

**Volleyball:** February 2025 - Present
